Quick Start Guide

V1.0

Phantom 4 Pro V2.0

The DJI PHANTOM™ 4 Pro V2.0 is a smart prosumer flying camera capable of shooting 4K video at 60 fps and at up to 100 Mbps, and capturing 20 megapixel stills. 4 directions of obstacle avoidance allow it to intelligently avoid obstacles during flight. Using TapFly™ and ActiveTrack™ through the DJI GO™ 4 app, you can fly anywhere visible on your screen or track a moving subject smoothly and easily with a simple tap. The camera uses a 1-inch CMOS sensor offering unprecedented clarity, lower noise, and better quality images.

In addition to the above features, improved propulsion system efficiency means aircraft noise is 4dB (60%) lower than on the Phantom 4 Pro V2.0.

Remote Controller

The powerful remote controller of the Phantom 4 Pro V2.0 has a transmission range extending up to 4.3 mi (7 km)*. It features physical buttons and dials to control exposure, camera tilt, photo capture, and video recording.

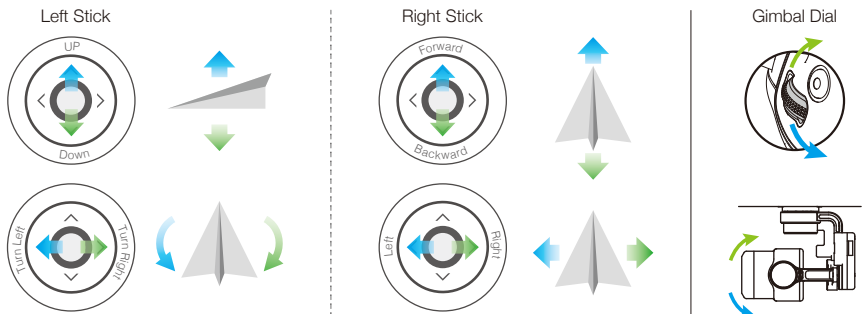

Built into the remote controller is DJI's latest long-range transmission technology OCUSYNC™, which when paired with a compatible mobile device gives you a live HD view from the Phantom's camera. Dual frequency support makes the HD video downlink more stable.

Using Phantom 4 Pro V2.0

1. Download the DJI GO 4 App

Search for 'DJI GO 4' on the App Store or Google Play, and install the app on your mobile device.

DJI GO 4 App

2. Watch the Tutorial Videos

Watch the tutorial videos at www.dji.com or in the DJI GO 4 app.

Tutorial Videos

 • DJI GO 4 supports iOS 9.0 (or later) or Android 4.4 (or later).

3. Check the Battery Levels

Press once to check the battery level. Press once, then again and hold to turn on/off.

4. Charge the Batteries

Remove the battery.

Charge Time:
~1 hr 20 min

Charge Time:
~3 hr 40 min

 • When charging is complete, the battery level indicators will automatically turn off.

5. Prepare the Remote Controller

6. Prepare for Takeoff

First-time activation requires your DJI account and internet connection.

Black propeller rings go on motors with black dots.

Silver propeller rings go on motors without black dots.

Press the propeller down onto the mounting plate and rotate in the lock direction until secure.

Check that the propellers are secure before each flight.

7. Flight

Ready to Go (GPS)

Before taking off, make sure the Aircraft Status Bar in the DJI GO 4 app indicates 'Ready to Go (GPS)' or 'Ready to Go (Vision)' if flying indoors.

In the DJI GO 4 App:

Auto Takeoff

The aircraft will take off and hover at an altitude of 4 feet (1.2 meters).

Auto Landing

The aircraft will land vertically and stop its motors.

Return-to-Home (RTH)

Bring the aircraft back to the Home Point. Tap again to stop the procedure.

Normal

You are in control of the Phantom, with satellite and Return-to-Home support.

TapFly

Tap on your screen to fly your Phantom in that direction, avoiding obstacles as it flies.

ActiveTrack

Mark an object on your screen to track it as it moves.

- Watch the tutorial in the DJI GO 4 app or on the official DJI website to learn more.
- Always set an appropriate RTH altitude before takeoff. When the aircraft is returning to the Home Point, you should guide it with the control sticks. Refer to the Disclaimer and Safety Guidelines for more details.

Manual Takeoff

Combination Stick Command to start/stop the motors

Left stick up (slowly) to take off

Manual Landing

Left stick down (slowly) until you touch the ground
Hold a few seconds to stop the motors

- Rotating propellers can be dangerous. Do not start the motors when there are people nearby.
- Always keep your hands on the remote controller so long as the motor is still spinning.
- **Stop motor mid-flight:** Pull the left stick to the bottom inside corner while simultaneously pressing the RTH button. Only stop motors mid-flight in emergency situations when doing so can reduce the risk of damage or injury. Refer to the user manual for details.

Stop motor mid-flight

It's important to understand basic flight guidelines, for the safety of both you and those around you. Don't forget to read the Disclaimer and Safety Guidelines.
